

0 AMMONIA GLASS

Description:

0 Ammonia Glass by Innovacar is the **ideal product to care for car windows** and is formulated with particular attention to provide an innovative solution to clean car windows.

In particular, it is an ammonia-free, scented window and glass cleaner for cars, with the following characteristics:

- **Ammonia-free:** its formula contains typical degreasing and cleaning capacity of Innovacar products without any ammonia to protect the delicate parts of the car. It is a specific feature and is requested by lovers of car detailing and detailers because it is safer on delicate car parts, such as plastic, rubber and vinyl. Furthermore, it allows the protective nanotechnological states, applied or to be applied, not to be damaged.
- **Degreasing micro-foam:** when activated, it creates a micro-foam that has a degreasing and cleaning effect.
- **Degreaser and glass cleaner, two in one:** it is the ideal solution for those looking for a degreasing and deep cleaning product which is also gentle, to be used both for internal and external windows and for hard plastics of the car.
- **Fights road dirt:** its degreasing power allows it to clean stubborn road debris such as insects, oils, nicotine and lime residue.
- **It does not leave marks:** it allows you to obtain better road visibility.
- **Emotive scent:** it has a special fragrance that allows you to immerse yourself into the mood of American detailers, giving a perceptible scent even after a long time.

Directions for use:

How to clean the car windows with 0 Ammonia Glass:

1. Choose the most suitable cloth to clean the surface to be treated.
2. Apply 2-3 sprays of 0 Ammonia Glass directly on the dry surface or on the cloth to be used.
3. Wipe the cloth with the product over the entire surface: a degreasing micro-foam will form over the entire surface, which can completely eliminate dirt and residue.
4. At the end, wipe with a dry microfibre cloth.

Use: use the product undiluted.

For maintenance cleaning and to obtain a multipurpose agent to clean interiors without rinsing: the recommended dilution is 1:10, i.e. use 90 ml of product and fill the remaining part with water (910 ml) to obtain 1 L of ready-for-use solution.

Caution:

Observe the advice on the safety data sheet when handling the product.

Technical features:

Appearance and colour: green liquid

Odour: characteristic

pH: 7,4 ± 0,5

Flash point: 38 °C

Relative density: 0,97 g/cm³ ± 0,05

Solubility in water: soluble

Solubility in oil: partially soluble

Storage:

Unopened and stored at room temperature away from direct sunlight.
